Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I purchased two TRACFONES for emergency cellular service for both my wife and myself after the tragic events of 9-11-2001. We live and work in the metropolitan Washington DC area and use the TRACFONE service for local calls and to keep in touch. It recently become an important local communication tool during the recent sniper attacks in our community. I do not support any FCC change that would change the current policy and add a monthly universal service fund fee to my cost of cellular service. Our second cellular phone number is 703-477-3711.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
